DESCRIPTION

Stream33® Washing Machine Connector is used to connect the water supply to the washing machine. The braided stainless steel exterior allows the supply line to bend freely without kinking or crimping and is corrosion resistant.

FEATURES

- Flexible, corrosion resistant design
- Reinforced PVC inner hose for durability
- Rubber washers for a water-tight, sealed connection

OPERATING SPECIFICATIONS

- Temperature rating: 40° - 140° F
- Pressure rating: 125 PSI maximum

APPROVALS

- cUPC
- NSF/ANSI 61

MATERIAL SPECIFICATIONS	
Inner Hose	Reinforced PVC
Braiding	Stainless Steel Wire
Barb	Brass
Ferrule	Stainless Steel
Nut	Brass
Washer	Rubber
Compression Nut	Brass
