Representative:

### MODELS

□ S33-EFQTSWT-1238

### DESCRIPTION

Stream33® Angle Stop Quarter-Turn Valve connects to a supply line and allows the control of water flow to a plumbing fixture. The quarter-turn handle easily and quickly turns water flow to the end fixture on and off, making it simple to perform repairs or maintenance without needing to turn the water off in the household.

### FEATURES

- Lead-free chrome-plated brass body
- Quarter-turn handle
- Angle stop valve

### OPERATING SPECIFICATIONS

- Temperature rating: 41° - 160° F
- Pressure rating: 125 PSI maximum

### APPROVALS

- cUPC
- NSF/ANSI 61
- AB1953

MATERIAL SPECIFICATIONS	
Body	Brass
Stem	Brass
