

GENERAL INSTALLATION INFORMATION

To ensure maximum performance from your Stream33 bath fixture, please read and follow the instructions and cautions. Carefully inspect the new fixture for any shipping damage. If such damage is found, report it to your vendor immediately. Under no circumstances should a damaged fixture be installed. The manufacturer and its distributor are not responsible for removal or reinstallation costs if a replacement fixture is necessary due to installation of a damaged fixture. Do not make modifications to the bath fixture. This could adversely affect the safety and performance of the fixture and void the warranty. Any failure to comply with the installation instructions and cautions may void the warranty.

A² composite tub-shower system age-in-place backing allows homeowners to add grab bars at any time as their needs change.

INSTALLATION NOTES

1. Install grab bars according to manufacturers installation guide.
2. Attach grab bars at the specified backer board locations only (see drawing below).
3. Right and left walls are the same, only mirrored.
