A 4024 NC

Actuator 24 V with end switch (4-wire)

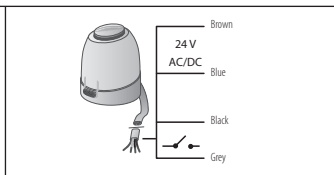

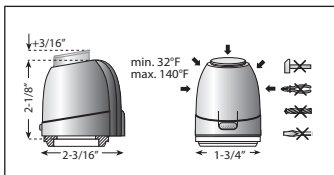

### Technical Specifications:

Operating voltage:	24 V AC/DC, 0-60 Hz
Operating capacity:	1.8 W
Power capacity:	2 W
Switch-on current:	max. 250 mA for max. 2 min.

### End switch

Switching current:	24 V AC: 3 A (1 A)
--------------------	--------------------

Type of protection:	IP54
Protection class:	III
Ambient temperature:	32 °F (0 °C) ... 140 °F (60 °C)
Storage temperature:	-13 °F (-25 °C) ... 149 °F (65 °C)

**Power supply: Safety isolating transformer according to EN 61558-2-6 (Europe) or class II (North America) with a maximum power output of 100VA**

### Assembly

### Optional "First-Open" Function

Power on > 6 min. → Power off

### Disassembly

### Adaptation Check

Gap: ≈ 0.02"

### Function Mode

Power on
